laughtercoaching@gmail.com

HAPPINESS & LAUGHTER COACHING

Trainer: Mary Mitchell - McGarrigle

TWO DAY WORK SHOP

What is Laughter Yoga? A typical laughter session is a blend of yogic deep breathing, stretching, stimulated laughter exercises and cultivated child-like playfulness.

Who should attend? Everyone who wants to add more laughter, humour, and fun to their lives, along with any therapists, nurses, social workers, counsellors, health-care workers, and professional speakers. Anyone who wants to laugh for no reason and just have a fun day with no pressure and no stress!

What will you learn? During the 2 day Leader Training Workshop you will learn the skills of various stimulated laughter exercises developed by the founder of Laughter Yoga, Dr Kataria. You will also learn laughter meditation, why we need to laugh more today, scientific research on laughter and its effects on human physiology, biochemistry and behaviour...the essential link between yoga and laughter.

Health benefits of laughter therapy – physical, mental, social and spiritual. Learn how laughter increases your confidence and positive outlook. How paying compliments and forgiveness, two effective tools of sensible living, can help to create harmonious relationships.

Why become involved? Laughter has numerous health benefits and is also used in the corporate world to stimulate creativity. As a provider of natural pain relief through increasing the level of endorphins in the body. It's also a fun aerobic exercise. It provides a good massage to all the internal organs enhancing their blood supply and increasing efficiency. In the two-day workshop you will become a laughter yoga Leader and can then run your own laughter parties/ clubs in your own area.

Health Benefits of Laughter: Anti Stress, a natural relaxant, strengthens the immune system, aerobic exercise, assists with depression, anxiety and psychosomatic disorders, reduces blood pressure, natural pain reliever helps in alleviating the symptoms of bronchitis and asthma, improves stamina and increases self confidence in a group, through laughter.

We recommend that on the day of the workshop you wear loose comfortable clothes and bring a large towel to lie on.

MARY MITCHELL – McGarrigle MICHP, MNLP - HISTORY

Laughter Yoga Ireland was established by therapist Mary Mitchell who first embraced the world of Complimentary medicine in March 1994. Suffering posttraumatic stress following a car accident, Mary found little relief from traditional medicine and, instead, turned to complimentary medicine. Finding the physical and mental healing she needed, she embraced the world of complimentary medicine and began learning as much as she could.

In 1995 she trained in Pranic Healing and Reiki. The following year she attended a Shamanic Healing course in London and went on to become a Reiki and Seichem Master. She became a facilitator of Vortex® Healing. Mary also spent time in London and Paris with the "Hugging Saint" Mother Amma.

In 1997 she completed an Advanced Diploma in Hypnotherapy and Psychotherapy and went on to teach under the guidance of the Institute of Clinical Hypnotherapy and Psychotherapy. The following year she qualified as a Master Practitioner of Neuro Linguistic Programming (NLP) and, in order to develop creativity and playfulness, began training as a clown.

During this time she became familiar with the concept of Laughter Therapy and, discovering the work of Dr. Kataria who developed Laughter Yoga, flew to Munich to train as a Laughter Leader. Certified by Dr. Kataria as a trainer, Mary undertook her first laughter class in June 2003.

Mary has completed a two-year diploma in Dancing the Rainbow.

In recent times Mary has been to the Oneness University in India where she took part in the 21 day process and 10 day deepening process. She was initiated as a Oneness Blessing Giver by the guides at the university. She has also trained in the Silva Mind method, has become a Bars Facilitator with Access Consciousness. Along with her work as a Laughter Leader and Stop Smoking Specialist she runs a busy practice in Co Donegal Ireland.

It's a week- end never to forget.

Teachers and students from Waterford IT had a fantastic day when Mary came to teach them to laugh.

Here are some of the comments below

The Laughter Workshop was run with such warmth and competency; I have not laughed so much in years.

A great day as the Laughter Yoga was so brilliant. Mary Mitchell was so warm and professional.

A very different experience, very enjoyable and so well facilitated.

As seen on TV3 Ireland AM and RTE 1 Nationwide. Gerry Ryan Show, Ray Darcy, The Star Newspaper, The Irish Independent, Woman's Own

Date _____

Laughter is the best medicine but caution needs to be taken where there are existing problems. Some of us tend to exert more pressure when laughing so for that reason it may not be suitable for those with the conditions above.
